

The Daily Rambam Study Section

➤ *An Upgrade*

Overview

- Chayenu has the exclusive contract with Moznaim (publishers of the only Complete Hebrew-English Mishneh Torah), to reprint selections of their Rambam, in our weekly booklet.
- Chayenu currently empowers 4000 Jews in 12 countries with this monumental daily study of Rambam (and other subjects).
- For the last study-cycle, we were only granted permission to include the text of Rambam itself. However, the valuable commentary, which is often necessary, would enhance this study tremendously. We now have this go-ahead.
- **Chayenu is embarking on the enormous task of including the (selected) footnotes and commentary for the new study-cycle, which requires new editing and formatting (layout) of the entire Rambam.**

The Process

1. We receive the source (digital) files from the publisher. These are split in two documents: (1) English text of Rambam and (b) Footnotes.
2. Associate Editor merges the documents into one comprehensive file. *(1 hr/week)*
3. Content Editor carefully goes through each Halacha & Chapter, carefully selecting which footnotes to include and which not. *(4 hrs/week)*
(We keep those which directly explain the text, and omit the highly involved (Pilpul) ones, which reference comparative sources and are too lengthy and deep for the average student.)
4. Typesetter does the new layout of Rambam in Chayenu. *(5 hrs/week)*
(The new layout – in addition to including the footnotes – is with Hebrew-English side-by-side, so that when we develop the Chayenu App (for iPad etc.), both languages will be visible on one screen, without needing to scroll back and forth, as in the book. Hence, the investment in this layout keeps in mind the future digital version of Chayenu.)

Estimated Cost

- Weekly cost for Editing & Typesetting \$360
- Annual Cost(x 52 weeks).....\$18,720
- Entire Rambam Upgrade.....(x 2.9 years / 143 weeks).....\$51,480

- ❖ Per Sefer of Rambam.....(1/14 books).....\$3677
